The designs show the overall style of the development, but elevational treatments may vary between plots in orientation, architectural detail and in the construction materials used externally and internally. These variations are designed to promote individuality and, in turn, to create a quality living environment. Our sales staff will be pleased to advise on the treatment specified for each individual plot. FUTURE PHASES: The development forms part of a wider regeneration project and future phases are subject to commercial viability and the securing of satisfactory planning consent from the Local Planning Authority. IMAGES: Computer generated images and artists' impressions are intended to give an artist's impression of the design, based on information available to the artist at the time the image is created. They are not intended to be an accurate description of any specific property, its location or the surrounding area. We do sometimes need to make changes to designs, finishes and features during the development and appearance may vary on completion. Images showing views are based on the site at the time the image is produced. Please note that landscapes change and a view which is unrestricted now may be restricted in the future. We do not control adjoining or surrounding land.
